

TABE ACHUO DENIS DEON

ABOUT ME

I am a strong believer in smart work, and I have it as passion to be perfect in all I do. My core values are honesty, humility, punctuality and consistency.

My portfolio website: <https://deonachuo-9db3a.web.app>

SKILLS & ABILITIES

I am skilled in computer programming in the following languages C++, Javascript and Python.

I am a full stack software engineer and a mobile app developer, I have at least 1- 2 years' experience in Node.js, Django, React.Js and Vue.Js frameworks.

For mobile app development, I have experience in React Native and Ionic framework but I am most comfortable with ionic framework.

I also have database manage experience, I am familiar with the following databases Postgres, MYSQL, MongoDB and Firebase.

I am also good at version control with git and DevOps skills.

Other than software, I am also skilled in programming and building of robots and automated systems in C++ and python.

EXPERIENCE

VOLUNTEER SOFTWARE ENGINEER, YESTIN

July 2020 to June 2021

I volunteered as a frontend developer in VueJs, where I was amongst a team of skilled engineers, Who built the first of its kind blood management system in the country.

Website: <https://dh-service.org>
